

# Digiframe

Digital photo frame

Model reference: **DPF10401**

## ▣ *Slide Show Mode:*

### ***Scroll through your favorite pictures***

View all the pictures of your memory card without any effort! Thanks to the Slide Show mode, you can scroll through your pictures. You only have to select the first picture to be displayed and the others will follow.

## ▣ *Card reader and USB ports:*

### ***View your pictures very simply***

Thanks to the different slots, the Digiframe is very easy to use: insert your memory card, turn on the frame and that's it! You can also directly connect your digital camera or your computer to the Digiframe via its two USB ports.

## ▣ *Magic Window:*

### ***View up to 4 pictures at the same time!***

Thanks to the Magic window function, the display can be divided into several parts, allowing you to watch two, three, or four pictures at the same time.
